Medical Certification of causes of Death has been implemented under section 10(3) of Registration of Births & Deaths Act 1969. The scheme on Medical Certification of causes of Death has been introduced in the year 1976 in Nagaland. This Scheme is presently being implemented only in the urban areas of the state, where majority of the medical institutions are functioning. At present eight (8) Government hospitals are covered under the scheme.

Medical Institutions functioning in the rural areas are not yet covered under MCCD. In these institutions though the treatment is available, deaths reported are almost negligible. It may be due to the fact that, the most serious patients are referred from rural institutions to urban institutions, in the absence of proper treatment facilities.

8. TRAINING ON MEDICAL CERTIFICATION OF CAUSE OF DEATH.

The Office of the Chief Registrar of Births & Deaths in collaboration with the Directorate of Medical & Health Services conducted orientation training course for the Medical Officers and Coders in all the District headquarters during 2012. Every year on the first of January, new Registers are opened by the local Registrars. The registers related to rural registration centers are transferred to the District Registrar's Office for maintaining on permanent basis after the close of the year. Efforts are required to preserve these historical records considering its legal value.

11. PUBLICITY: The Department has been taking various steps for publicizing on the importance of Registration of Births & Deaths, which were exhibited to the public in the form of Posters, Pamphlets, Wall hangers, Billboards etc. with the messages of Births & Deaths. 13. INSPECTION: Inspection to selected Registration units were done from time to time from the headquarter office. The District Registrars and Circle Registrars were instructed to carry out inspection of the Registration units under their respective jurisdictions. Owing to huge number of Registration units, cent percent inspection could not be undertaken during the year 2012.

14. PRINTING OF FORMS & REGISTERS: During 2012 the forms and certificates and register of births, deaths and still births were made available, in time and in sufficient quantity, to all the Registration centers both in the rural and urban areas through the District Registrars (DSOs).

There was no report on prosecution of compounding during 2011.

16. DIFFICULTIES ENCOUNTERED IN IMPLEMENTATION OF THE ACT.

Implementation of the Registration of Birth & Deaths in the State is hindered by the following factors:

1. Inadequate postal facilities.

19. CONCLUSION. For the successful implementation of the provisions of Registration of Births & Deaths, the present system of imparting trainings as well as special trainings for low performing RD Blocks at regular intervals should continue with the financial assistance from the ORGI. Large scale publicity campaign on the importance of Registration of Births and Deaths are required to create awareness among the people especially in the Rural and remote areas of the state for which financial assistance from the ORGI is imperative. There is the need to locate the problem of submission of reports from the Registration in the light of prevailing condition in the State.
