

PREFACE

The current publication is the first series of the New CPI for Rural, Urban and Combined using the base year 2010=1000 published on quarterly basis by the Directorate of Economics & Statistics, Nagaland for the Last quarter of 2016 (October-December). The Department has done away with the old CPI of Urban Non Manual Employee (UNME) using the base year 1981-82=100 since it has become irrelevant and outdated and fail to measure the realistic trend of present consumption habit of the population. Relative movement of retail and wholesale prices of consumer goods, non-consumer goods, building materials are incorporated.

Consumer price index (CPI) measures changes in the price level of consumer goods and services purchased by the households. CPI is an important economic indicator, it is helpful in formulating various policies and programmes, it is used as deflator/inflator, CPI is also a useful tool in generating and adjusting real wages and salaries, taxation, price policy.

Basing on the National Sample Survey (NSS) 66th Round State Report for the Consumer Households Expenditure, the weighting Diagram for CPI Rural, Urban and Combined has been derived. Altogether, 105 items in rural sector, 130 items in urban sector and 131 items in combined sector are included in the weighting diagram. Under the New CPI series, the price of 240 items (both weighted and unweighted) are being collected from all the 11 districts covering 11 urban price centres and 22 rural price centre. The wholesale prices included in this publication are collected from the Dimapur Urban centre.

It is our hope that the data contained in this report will be helpful for Policy Makers, Planners, Administrators and Researchers.
