FOREWORD

The ‘Other Services’ is a sub-sector under the tertiary classification and consists of all such services which are not listed independently otherwise. As per the National Accounts Statistics, activities under ‘education, human health & social activities, arts, entertainment & recreation and other Services not elsewhere classified’ are those included under this sub-sector.

The type study on other services sector has been independently executed by the Department of Economics & Statistics, Government of Nagaland, for the Other services sector in the State under the Support for Statistical Strengthening Scheme (SSS) of the Ministry of Statistics & Programme Implementation, Government of India. This particular exercise has been undertaken with a view to improve the estimation of Gross State Domestic Product and District Domestic Product.

As a sample survey, the study has been canvassed following standard statistical tools to measure the contribution of this specific sub-sector to the State’s Gross Domestic Product and further to collect detailed information of such enterprises falling under the sector.

It is anticipated that this publication will be optimally used for all such estimation procedures in the future with respect to this sub-sector.

PREFACE

The Department of Economics & Statistics, Government of Nagaland has conducted a type study on Other Services sector within the geographical boundary of the state of Nagaland. This study pertains to collecting detailed information on such 'other service' enterprises for estimation of Gross State Domestic Product (GSDP) and District Domestic Product (DDP).

This study has been undertaken by the Department under the Support for Statistical Strengthening Scheme (SSS) of the Ministry of Statistics & Programme Implementation (MOSPI), Government of India.

This report on the 'Type Study on Other Services Sector' is an attempt to capture detailed components of the other services sub-sector like particulars of the enterprise: ownership code, registration status, description of its activity, information on its employees, etc., value of assets, value of working capital & loans, expenditure and receipts during the reference period and other particulars of the enterprise including the use of Information and Communication Technology by such enterprises.

As this publication is a result of the collective and compounded efforts of multiple individuals, I would like to place on record the officers and staff of the District Economics & Statistics Offices in all the 11 districts for their tireless efforts in collecting the data at the enterprise level. I also extend my appreciation to the team of officers and staff at the Directorate of Economics & Statistics who have been responsible for designing the survey, training of field staff and finally, publishing the results of the survey.

I hope this report will be useful in improving the estimation of GSDP and DDP and planning purposes.

I
INTRODUCTION

Background

The Department of Economics & Statistics, Nagaland, since its inception, has been actively engaged in the data collection and dissemination of key and vital statistics for proper policy formulation. Every year, the Department estimates and brings out the Gross State Domestic Product (GSDP) figures. However, it is felt that a sub-state level estimate of the District Domestic Product (DDP) is required to effectively capture the growing economy of the districts. As a result, this *Type study on Other Services sector in the State of Nagaland* was initiated to be undertaken in the Support for Statistical Strengthening (SSS) Scheme.

This Type study survey on 'other services' segment of the economy is the first of its kind conducted by the Department of Economics & Statistics, Nagaland. This report hereby contains the sample-based estimation of the enterprises in 'other services' category with the objective of providing reliable estimates under this sub-sector.

Objective

Under the Support for Statistical Strengthening Scheme, the Department of Economics & Statistics, Government of Nagaland has undertaken *Item 3.1 (2) Type study other services sector to improve GSDP and DDP estimates* during 2021-22. The estimates derived from this sample survey covering the entire state of Nagaland are aimed at improving the estimation of Gross State Domestic Product in general and the District Domestic Product in particular. The information collected from these 'other service' enterprises were based on two accounting years *i.e.* 2020 and 2021.

This survey was designed to collect detailed information of enterprises falling under the category of Other Services which includes:

1. Particulars of the enterprise like ownership code, registration status, description of its activity, information on its employees, etc.
2. Value of assets owned along with long term lease/hired assets
3. Value of working capital & loans
4. Expenditure during the reference period of 1 year
5. Receipts during the reference period of 1 year
6. Particulars of use of ICT by the enterprise

Methodology of the survey:

- This sample survey is an enterprise focussed survey covering the enterprises that fall under the NIC 2008 activity category codes 85101 to 96908 (refer Table I).
- Reference period: two accounting years i.e. 2020 & 2021 were used as recall period for this survey.
- Business Register 2015 which was developed by the Department of Economics & Statistics, Government of Nagaland containing name, address, NIC 2008 code, ownership code, number of workers, etc. was used as the sample frame.
- All establishments having 2 or more workers comprised the sample frame.

Limitations

While interpreting the final estimates of this report, the user needs to be mindful that the survey conducted was not free from its share of limitations. Consequently, the following issues are to be noted while using this report.

- The sample frame used for this survey is the Business Register 2015 which may not ensure coverage of the new enterprises in the concerned category.
- Employees were distinguished based only on whether they were paid employees or unpaid employees (family member/proprietor, etc.) and their gender.
- Non-sampling errors.

APPENDIX B: METHODOLOGY

Sampling method & Multiplier

Sampling is simply the process of learning about the population on the basis of a sample drawn from it. In this context, a sample is being drawn from the population of all Other Services enterprises located within the State of Nagaland listed in the Business Register. Based on the characteristics of the samples, generalization is made about the larger population. This generalization is consequently obtained by an estimation of the population using the multiplier technique.

Sampling multiplier technique entails deriving at population estimates by multiplying the sample results with the multiplier value. The value of the multiplier is simply an inverse of the ratio of size of the sample to the size of the population (i.e. sample frame) *i.e.,*

$$\text{Multiplier} = \frac{\text{Total Number of enterprises falling under the NIC 2008 Divisions 85-96}}{\text{Sample Number of enterprises falling under the NIC 2008 Divisions 85-96}}$$

Sample design

Sample frame: The Business Register 2015, was used as the main sample frame. Enterprises in Nagaland generally being small scale in nature, '2 workers or more' was used as the selection criterion for selection of enterprises into the sample frame under this study.

Sample size & procedure: The enterprises with 2 or more workers falling under the 4 categories of NIC activity codes P, Q, R and S which were enumerated under the Business Register 2015 were a total of 1066 units. Out of these, about 30% of the enterprises were selected and a sample size of **322 establishments** from all 11 districts of the State have been surveyed using paper schedules investigated by the field staff of the District Economics & Statistics Offices. (Refer Table B-I below)

Sampling technique: A disproportionate stratified random sampling scheme was used to select samples from different stratas. As per National Industrial Classification of all economic activities (2008), sections P, Q, R & S formed the 4 (four) stratas for selection of concerned sample units.

Table B-I: Distribution of samples from 11 districts

Sl. No.	District	Sample size

   Item 11 (i) of Bl. 5: GST/Excise duty, etc.

   Item 7 of Bl. 6: Subsidies

2. **Input= Items 3.1+3.2+3.3+4+5+6+7+8+9+12+13+14+15 of Block 5**
   Where,
   Item 3.1 of Bl. 5: Production of goods/services
   Item 3.2 of Bl. 5: Construction of Own building
   Item 3.3 of Bl. 5: Construction of furniture/fixtures
   Item 4 of Bl. 5: Electricity charges
   Item 5 of Bl. 5: Advertisement & marketing
   Item 6 of Bl. 5: Transportation charges
   Item 7 of Bl. 5: Fuel charges
   Item 8 of Bl. 5: Repair & maintenance
   Item 9 of Bl. 5: Rental paid for fixed assets including building (other than land)
   Item 12-15 of Bl. 5: Other expenses (Misc.)

3. **Gross Value Added = Operating Surplus + Compensation of Employees**
   Where,
   OS (Operating Surplus) = Output – Input
   CE (Compensation of employees) = (Total wages/salary + Contribution to Provident Fund)

4. **Gross Value Added Per Worker (GVAPW) = GVA of enterprises ÷ No. of workers employed in those enterprises**
